

# Announcing Lee-Scott Academic Camps For Summer 2010

Open to upcoming 2<sup>nd</sup>-6<sup>th</sup> graders  
Instructors: Juli Clardy and Allyson Roberts

## **June 7-9 - Technology Camp & Art Camp**

This hands-on **technology** camp will utilize our mobile Mac lab. It will give students hands on experience using PowerPoint, Google Earth, Photo Booth, and iPhoto. They will get practice in doing topic searches on the internet and instructed on internet safety. At weeks end, each child will bring home a CD containing his/her project to share.

**Art** camp will allow children to use their imagination. They will explore new topics and create various types of art using different mediums. Each day will be a positive learning experience for your child.

## **July 19-21 - Math Camp & Science Camp**

This fun summer **math** camp will allow children to participate in a variety of math activities and games each day. They will learn new concepts and review skills previously taught. Manipulative and hands-on activities will be used each day. This is a great way to get students ready to start the new school year!

**Science** - This new camp is designed to combine fun and reinforce Alabama Science objectives. This will be a "hands on" experiment extravaganza from the beginning to end. Be prepared for your camper to come home and want to perform all their experiments again for you each night.

This year our format is a little different with two camps being offered in one day. Students may sign up for one camp a day, or both camps with an option to have lunch provided to them at school and a chance for some outside playtime with friends.

### Questions?

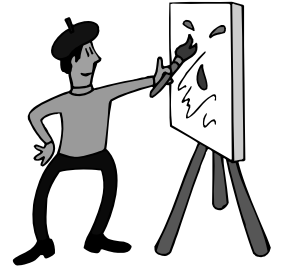

Contact Allyson Roberts at [aroberts@lee-scott.org](mailto:aroberts@lee-scott.org) or 524-5648.

Please complete the following registration form and return with the camp fee (checks payable to Allyson Roberts) to school or by mail to:

Allyson Roberts, 1005 Renfro Ave., Opelika, AL 36801
